

Aid associations for immigrants with HIV/Aids

The following is a list of community-based HIV/Aids organisations that work with and provide services to immigrants. These groups can give advice regarding application procedures to access public health services in the autonomous communities of Spain.

Doctors of the world (Doctors of the world) is an organisation that gives support and advice to immigrants on how to apply for public health services. It has offices in most of Spain's autonomous communities. The Cruz Roja (Red Cross) is another large organisation that works with immigrants in all Spanish provinces, and advises them on how to access public health services throughout the country.
